

Kerosene Water Heater Model BS-35(F)

FEATURES

■ NEW LOTUS BURNER

Ensures quick ignition and low-noise operation. It also allows compact size design, stable burning, and contains odor when lighting or extinguishing.

■ LOTUS TYPE HEAT EXCHANGER

Achieves 85.7% efficiency and provides high resistance to heat and water pressures with its upper multipipe and bulge-shaped lower burner chamber.

■ SAFETY DEVICE

IGNITION:

Multi-safety mechanism including tip-over switch, over-heat protector, bi-metal switch and burning controller prevents fire, accidents and/or malfunction and protects the unit from incorrect operation or abuse.

BUILT-IN ANTI-FREEZE MECHANISM Protects the heat exchanger from cracking due to freezing.

SPECIFICATIONS

MODEL: BS-35(F)

TYPE: Combustion Type: Pressure Vapor

Exhaust System: Forced Exhaust Type

Purpose: Hot Water Supply High Voltage Discharge Spark

FUEL: Kerosene Only

FUEL CONCUMPTION

FUEL CONSUMPTION: 4.0 L/h **EFFICIENCY:** 85.7%

HEATING OUTPUT: 120,000 BTU/h (35.2 kW)
CAPACITY OF HEAT EXCHANGER: 8.8 L (Max. Pressure: 100 kPa)

POWER SOURCE: AC220V / 50Hz

POWER CONSUMPTION: (Ignition: 117 W, Burning: 97 W)

OPERATING AMBIENT TEMP.: -20°C - 40°C

NOISE LEVEL: 53 dB

DIMENSIONS (WxDxH): 260 x 510 x 700 mm

WEIGHT: 25 kg

EXHAUST AIR TEMPERATURE: less than 260°C **DIAMETER OF EXHAUST PIPE**: $106 \phi \text{mm}$

NOZZLE: Quantity of Vapor: 1.0 GPH

Spraying Pattern: Danfoss KH Spraying Angle: 60°

SAFETY DEVICE: 1. Automatic Combustion Control system,

2. Flame Sensor, 3. Over-heat Protector,

4. Power Failure Recovery System,

5. Fuel Strainer,

6. Heat Exchanger Bi-metal Switch,

ACCESSORIES: Remote Control (1),

Cord for Remote Control (8m),
