

Kerosene Cooking Stove

Model K-3E

FEATURES

■ MULTIPLE FUNCTION

K-3E is designed as Cooking and Heating purpose.
Due to powerful heating power, it is easy to cook as well as boil the water.
On the other hand, it can also be used as the heater in the room.
It is useful in a time of disaster that life line is cut off.

■ EASY TO OPERATE

Stove can be ignited with match or lighter when handle is turned right.

■ DOUBLE WALL TANK CONSTRUCTION

The double wall tank construction prevents leakage even when stove tips over for safety.
