

# Compressor Type Dehumidifier

## Model TD-C200

### FEATURES

- **COMPRESSOR TYPE DEHUMIDIFIER**  
This model features compressor instead of desiccant.  
Accordingly this model shows great ability in the areas of High-temperature and humidify.
- **HIGH EFFICIENCY COMPRESSOR**  
High efficient rotary compressor runs at low energy consumption.
- **OFF-TIMER**  
It has OFF-Timer function which can be selected between 1 hour and 12 hours.
- **DUAL WATER DRAINAGE OPTION**
  - Continuous drainage by connecting hose from the unit
  - 5.4 L water tank
- **AUTOMATIC OPERATION**  
Room humidity can be controlled automatically by setting the desired humidity approximately 30% - 80%.

### SPECIFICATIONS

<b>MODEL:</b>	TD-C200
<b>APPLICABLE SPACE:</b>	83 m <sup>2</sup>
<b>DEHUMIDIFYING CAPACITY:</b>	20 L/day(30°C80%RH)
<b>POWER SOURCE:</b>	Single phase 220-240V / 50Hz
<b>OPERATION TEMPERATURE RANGE:</b>	5 °C - 32 °C
<b>POWER CONSUMPTION:</b>	380 W
<b>COMPRESSOR:</b>	Rotary
<b>REFRIGERANT:</b>	R-410A/190g
<b>PRODUCT DIMENSIONS (W x H x D):</b>	390 x 274 x 612 mm
<b>WEIGHT:</b>	14.2 kg
