

# Compressor Type Dehumidifier

## Model TD-C210

**TOYOTOMI**

### FEATURES

■ **COMPRESSOR TYPE DEHUMIDIFIER**

This model features compressor instead of desiccant.  
Accordingly this model shows great ability in the areas of  
High-temperature and humidify.

■ **HIGH EFFICIENCY COMPRESSOR**

High efficient rotary compressor runs at  
low energy consumption.

■ **HIGH EFFICIENCY DC MOTOR**

High efficient DC motor runs at low energy consumption and at big  
dehumidifying capacity.

■ **DUAL WATER DRAINAGE OPTION**

-Continuous drainage by connecting hose from the unit  
-1.8 L water tank

■ **COMPACT BODY & LIGHTWEIGHT**

Model TD-C210 is compact design.  
It is very convenient to carry around with handle.

■ **AUTOMATIC OPERATION**

Room humidity can be controlled automatically by setting the desired humidity.

■ **4 MODE DEHUMIDIFY CONTROL: 40% / 50% / 60% / Cont.**

■ **The hose is available as a standard accessory for the use of continuous drainage.**

### SPECIFICATIONS

<b>MODEL:</b>	TD-C210
<b>APPLICABLE SPACE:</b>	45-55 m <sup>3</sup>
<b>DEHUMIDIFYING CAPACITY:</b>	10 L/day (30°C 80%RH)
<b>POWER SOURCE:</b>	Single phase 220~240V / 50Hz
<b>OPERATION TEMPERATURE RANGE:</b>	5 °C - 35 °C
<b>POWER CONSUMPTION:</b>	210 W
<b>COMPRESSOR:</b>	Rotary
<b>REFRIGERANT:</b>	R-134A/92g
<b>PRODUCT DIMENSIONS (W x H x D):</b>	290 x 190 x 478 mm
<b>WEIGHT:</b>	8.6 kg
